

The Veterinary Visit....Clean, Quiet and On-time: You want quality veterinary care and you want it efficient.

Maintaining order for clients and patients during your visit is most important. Our clients make appointments and are very good in keeping their appointed time. It is our responsibility to honor that commitment. We do everything in our power to begin patient care at the appointed time. Our clients are busy. We do not want them to wait.

The other issue is that the faster we can see the patient, the less stress to the patient.

Finally... Our facility is clean. You can count on it. To prove it...
ASK FOR A WALK THROUGH!!
